

Spectroline

Acid-Buster™

coil cleaners
leak detection & monitoring
recovery machines
vacuum pumps
weighing platforms
acid treatment
fragrances & odour control
flame retardants
tools & accessories

KEY BENEFITS

Twice as concentrated as competitive acid removing solutions.

Universally compatible - works with all refrigerants and lubricants.

Direct reusable BigEZ™ injector eliminates the need for a charging vessel.

No reaction and therefore no residue or contamination left in the system.

Easy to use - prefilled, disposable cartridges.

Designed to remain in systems guarding against acid build up.

Spectroline

Acid-Buster™

The development of acid in refrigeration and air conditioning systems can severely shorten the life of the compressor and the refrigerant. Where compressor burnouts occur, the oil becomes extremely acidic. If the acid is not removed from the system it will attack the new compressor and cause another motor burnout.

Acid-Buster is a ready-to-use acid removing solution which utilises the BigEZ injector enabling precise amounts to be injected directly into an air conditioning or refrigeration system. Acid buster is safe to use with all refrigerants and lubricants and doesn't leave behind a residue of corrosive salts.

acid treatment

Acid-Buster is also perfect for preventative maintenance as it is specially formulated to remain safely in the system guarding against acid build-up. This removes the need for certain tasks such as performing frequent oil changes to dilute acids or periodic flushing of the entire system to remove acids, both of which are expensive and time-consuming.

DIRECTIONS FOR USE

- Determine the level of acid contamination in the system
- Determine the system oil capacity
- Determine the correct amount of Acid-Buster solution to be used.
One graduation treats 240ml of compressor oil.
- Add the correct amount of Acid Buster solution.

FEATURES

BigEZ injector and graduated cartridge allows precise application.

1 graduation treats 240ml of oil. One small cartridge treats 7.5 litres of oil. One large cartridge treats 15 litres of oil.

No residue or corrosive salts.

Works with all refrigerants and lubricants

Can help prevent a system burnout.

TECHNICAL INFORMATION

Acid-buster dosage	1 graduation per 240ml of oil
Acid-buster Quantity	1 cartridge treating 7.5 litres of oil
Packing Quantity	1 kit
Shipping Weight kg	1.1
Packing Size (L x W x H) mm	415 x 315 x 85
Kit Product Code	AB-400/CS
Shipping Volume m³	0.011
